

Ioannis Koupidis.

I bring twenty years of design and operations · twelve of them inside Swedish healthcare · as *designer*, *founder*, and *project manager*.

PROFILE

UX Designer with a background in Graphic Design and 20+ years of experience across design, branding, and business operations. I started in Athens, working for more than a decade with fashion houses, food brands, and creative agencies. In Stockholm, I founded and ran a staffing company supplying specialist doctors to Swedish public healthcare, with an **ISO 9001 and ISO 14001 certified** quality management system: contracts, budgets, scheduling, GDPR, and public procurement in a regulated market. I recently completed the UX Design program at Medieinstitutet Stockholm. I now focus on **UX Research and Product Design**: user interviews, usability testing, prototyping in Figma, and clear documentation. Twelve years on the customer side of healthcare systems taught me exactly where users get stuck.

User interviews · usability testing · Figma & prototyping · personas & journey mapping · onboarding flows · healthcare operations · GDPR & regulated markets · AI native workflow

SELECTED WORK

Agent X · onboarding case study

Medieinstitutet Stockholm, 2026

Redesigned onboarding for new players in a demanding hardcore shooter · a first session where the goal is getting users to value fast. Eight player interviews, two personas, a journey map, annotated wireframes, and three think aloud usability sessions led to a validated concept for a subtle guide inside the game world.

EXPERIENCE

● Operations · Stockholm · 2011 →

Founder & CEO · Konduko AB

2012 to 2025

I founded and ran a staffing company that supplied specialist doctors to Swedish public healthcare, with an ISO 9001 and ISO 14001 certified quality management system. I independently won more than 25 public tenders. The framework agreements awarded in the last three years alone were worth more than 1.5 billion SEK, about €130 million. I was responsible for contracts, client and physician partnerships, scheduling 140+ doctors across parallel assignments, budgets, invoicing, cash flow, recruitment, and vetting. For twelve years, I balanced competing priorities across clients, consultants, and regulatory requirements · as a daily user of the scheduling, procurement, and invoicing systems Swedish healthcare runs on.

Contracts

Budgets & cash flow

Public tenders

ISO 9001

ISO 14001

12 years

Founder · NiyaCare Stockholm AB

2011 to present

A personal assistance company supporting people with disabilities in finding, evaluating, and keeping the right personal assistants. I was responsible for matching assistants to individual needs, service quality, and daily operations.

● Design & creative work · Athens · 1998 to 2011

Graphic Designer → Project Manager · Apolyto S.A.

1998 to 2009

Design and production for commercial clients. Layout, image retouching, colour management, print production, client briefs, and quality control. Over time, I moved into project coordination and took responsibility for smooth, on time delivery.

Creative Consultant · Angelos Frentzos S.A.

2004 to 2011

Creative work with fashion designer Angelos Frentzos across branding, lookbook concepts, visual storytelling and photo shoot direction · including concept work and the production of a lookbook for Milan Fashion Week.

Creative Consultant · Barbara's Food Company

2009 to 2010

Branding, packaging design, food styling, and photography. I helped shape the visual identity and launch of Delivery by Barbara.

Design Consultant · PricewaterhouseCoopers

2004 to 2009

Worked with the marketing and communications team on national print advertising and conference materials, bringing clarity, structure, and consistency to the visual communication.

EDUCATION

Medieinstitutet Stockholm · UX Design

Mar to Jun 2026

IIEK Technografiko, Athens · Graphic Design
